SOUTHWEST GROWS IN EVERY SECTION

W. E. Barnes Surprised that More Have Not Signed For Trade Trip.

W. E. Barnes, traveling freight and passenger agent of the Southern Pacific company at Tucson, Ariz., is making El Paso a flying visit. Mr. Barnes requires no introduction to the business men of this city. He is always sure of a hearty welcome.

Regarding conditions in the territory he covers, he is very enthusiastic. He has just recently completed a trip through Arizona and New Mexico. "I find," said he, "the greatest activity along the line of the Southern Pacific company, which speaks volumes for the very excellent freight and passenger service the Southern Pacific company is giving the people of Arizona and New Mexico."

"The mining industry shows wonderful activity. It would be difficult to select a camp for special mention. From Yuma to the gates of El Paso, new prospects are being discovered daily. Old mines long inactive are now bustling with life, and capital stands ready to invest. The Globe-Miami district will be shortly producing 10 percent of the copper production of the United States."

"Now as to the El Paso trade excursion, I am somewhat surprised that El Paso business men do not sign up faster. It is just such excursions that will greatly promote the best interests of El Paso. I have heard frequent mention of the proposition at various points in Arizona and New Mexico and always in the most favorable terms."

"When I was in Yuma the other day, a prominent citizen inquired very anxiously concerning the excursion. He said that the people of Yuma wanted to meet the business men of El Paso. Yesterday, at Lordsburg, N. M., two leading business men in conversation expressed themselves as greatly disappointed that Lordsburg was not mentioned in connection with the affair. We would be glad to welcome the El Paso representatives, and feel slighted that thus far we have seen no report that they are to stop at Lordsburg."

"Merely as a hint to El Paso business men, I would call attention to an editorial (over a column) published on the 26th inst. in a leading Los Angeles daily. It is entitled: 'A hinterland worth while.' New Mexico, awaiting Los Angeles business men to take possession, is for sale at a bargain. Milk and honey; and the Los Angeles newspaper is right."

FERRIS QUILTS THE NORTH WESTERN ROAD
H. C. Ferris, general manager of the Mexico North Western, will resign on September 1 to devote his attention to mining interests in the state of Chihuahua. Mr. Ferris has been in charge of the road as general manager since it was taken over by the Pearson interests.

AMUSEMENTS

DOUBLE FEATURE AT PRINCESS.
Florence Lawrence and Maud Muller will be shown at the Princess tonight, all on one bill. Either one separately makes a big feature anytime, but both on the same program makes one of the finest programs ever shown anywhere. The management declares.

Florence Lawrence will be seen in her latest hit, "The Winning Punch," and "Maud Muller," a beautiful two-reel feature, is founded upon Whittier's great poem, produced in a masterly manner by the Nestor company.

Both of these pictures are released today and are shown at the Princess morning to remain here over Sunday to go over the situation in Mexico with his representatives in El Paso. Mr. Miller denies that he has been in the Pecos valley making an inspection of that country with a view of projecting a Panhandle shortline from El Paso through this section.

REMODELING WORK STARTS ON THEATER

Remodeling of the Crawford theater was begun Thursday and there will be \$5000 spent on improving the theater. The work of remodeling consists of cutting a door through from dressing rooms to a direct exit at the north end of the building, placing new glass skylights in the building, placing fireproof grooves for the fireproof curtain, a steel stairway to replace the wooden one, putting on new roofing and plastering and painting the interior of the theater. The remodeling is being done by S. E. Patton.

Patton Builds Bungalow.
S. E. Patton began work a few days ago on a new six room bungalow at 2714 Rio Grande street. The house will be of brick and contain the built in features. It will cost about \$3,500.

Children's Week

Fill Their School Needs Saturday

Girls' New Woolen Dresses

Special \$2.95

—That the price is exceptional will be evident as soon as one examines the sturdy fabric and the excellent tailoring.

—The reason for this almost absurd price is because there are only a limited number of dresses.

—The tailor had only enough of these fabrics remaining for this limited number of dresses, so he made them up for us at a concession.

—The style of the dress is distinctly plain tailored with its plain set-in tailored sleeves, which gives it an air of smartness—a style that appeals for its practicability. Sizes 6 to 14.

—Dresses of such excellent quality men's wear serge as these never go out of fashion.

—An excellent school dress in practical colors such as navy and cardinal.

—Notice the careful finishing, and every little button hole that can bear minute examination.

—That's why our garments are so popular because our buyer insists upon the best of everything down to the smallest detail.

—While they are on the plainest tailored order—they show the new style touches, embellished with white, black and red silk cord and braid, brass buttons, etc., button down back. All one-piece models.

—The skirt is also very modish, with the new Fall effect style—the Watteau pleated model.

WASHOUT ON THE NORTH WESTERN ROAD

A washout on the North Western line occurred Thursday night at kilometer 128, just south of Guzman. The telegraph line is also down. This bridge is only a small one, the railroad officials say, and it is expected to have it repaired by tonight. The other 22 bridges which were burned by the rebels have also been replaced and the last one will be ready for trains to pass over it tonight. Unless something unexpected happens the North Western will have trains operating on their line Saturday.

Federal troops have been placed at Guzman, San Jose and the other stations along the North Western to protect it from the raids of the rebels.

The Southern Pacific is again being troubled with washouts in Arizona as a result of heavy rains, and Friday morning the Golden State limited and California from the west were delayed as a result. The Golden State is held up about six hours and will not arrive in El Paso until 7:30 in the evening with the California following it a few minutes later. The washouts occurred near that of two days ago.

H. P. Jackson, president of the Jackson Grocery company, will leave Monday for California on a business trip. He will be away a week.
